Introductory

The present volume constitutes the 1925 edition of Henderson's Directory of Regina. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essentials features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The Publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 37 to 84 and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals, homes and asylums, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE is embraced in pages 85 to 164; in this feature the names of all streets and avenues are arranged alphabetically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ADVERTISING occupies pages 1 to 36; this section of the Directory, printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 165 to 436.

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 437 to 548 and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING REGINA

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Regina, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Regina is 44,165. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Regina may be obtained for the Directory.

Respectfully The Publishers.

City of Regina

Regina is situated in lat. 50.30, long. 105, 357 miles west of Winnipeg and 1,125 miles east of Vancouver, and is served by the two transcontinental lines, viz., the Canadian Pacific and the Canadian National Railways.

The selection of the townsite of Regina was arranged jointly by the Government and the C. P. R. Company. Early in 1883 an officer of the North West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the railway company to enter into partnership regarding certain townsites, one of which was to be the seat of government for the Northwest Territories. Acting under this agreement, the general manager of the railway company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz., 19 to 30, township 17, range 19, and 24 and 25, township 24, range 20, west of the second meridian, to constitute the townsite of Regina.

Nominations for the first municipal elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs. Mr. D. L. Scott, now judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a city on June 9, 1903 and is now the capital and seat of government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the city limits.

It has been well said that there are no parliament buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan capital.

The building is constructed of Tyndall stone, fireproof throughout, at a cost of approximately \$1,900,000, the erection being commenced in the fall of 1908, and the departmental offices occupied in the fall of 1910. The length of the building is about 543 feet, and the height of the dome approximately 187 feet. The central portion is 98 feet in width and 267 feet in depth, with a wing on either side, each 222 feet long and 72 feet in depth.

The City Council is composed of a Mayor and ten Aldermen. The Mayor is elected annually by a vote of the entire city, and commencing with the Municipal Election of December, 1914, the Aldermen have also been elected from the city at large. Prior to that time

they were elected annually from the five wards of the city, two representatives to each ward. Since 1921 the Municipal Elections have been held according to the system of Proportional Representation known as "The Single Transferable Vote."

Regina is undoubtedly the financial centre of the province, and its development in this respect is very remarkable. Seven of the leading Canadian banks now have branches in this city, the majority of them having erected substantial and elaborate offices of their own. The Bank of Montreal, Canadian Bank of Commerce and the Royal Bank have recently established provincial inspectorates in Regina.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta.

Regina is justly entitled to be termed one of the best served railway cities in Western Canada. Twelve lines of railway radiate in all directions from the city, and the C. P. R. and C. N. R. vie with each other in their endeavor to give Regina an excellent train service.

The Great Northern Railway has direct communication between Regina, Minneapolis, St. Paul and other southern cities over the Canadian National Railroad Boundary Line. In addition to the lines in operation, bonds have been guaranteed by the Provincial Government for ten additional branch lines, which when completed, will make a total of twenty-two railway lines radiating in all directions from Regina.

Owing to its geographical situation in the heart of the grain growing district of Western Canada, and with unequalled railway facilities, Regina is one of the largest distributing points for agricultural implements in the world, and practically every Canadian and American implement manufacturing firm of any importance has its agency in the city. The advantages for the distribution of other lines of goods are on a par with those for agricultural implements, and Regina has a large number of manufacturing concerns.

The city is a firm believer in municipal ownership, and owns its street railway, of which it has some 30 miles constructed within the city limits; light and water plant, supplying cheap light and power; and water system, the water being obtained from springs distant some eight miles. With regard to the last two mentioned utilities, the city has planned the expansion of the present system, so that, when complete, they will provide for a population many times the number of the present one, supply sufficient power and provide adequate fire protection throughout the City.

During 1914 the city extended its municipal ownership still further by the establishment of a Municipal Stock Yards on a scale sufficiently large to accommodate all the livestock raised in the province. The yards were opened in September, 1914, and considerable business has been carried on. The ultimate aim of the city, however, is the provision of an up-to-date stock yard to furnish a good market for all stock raised in the country tributary to the city.

Regina is also the headquarters for the Saskatchewan Co-operative Elevator Company, the Grain Growers' Grain Company and the Saskatchewan Wheat Pool, all of which have been a remarkable benefit to the farmers, and agriculture generally.

As a residential centre, Regina offers every inducement to the homeseeker. In this respect it has been referred to as "The City of Beautiful Homes."

From the educational and social points of view the city also offers every advantage. With a population of about 40,000, the city has the Regina College, St. Chad's College and the Provincial Government Normal School all carried out in Gothic treatment, and a Collegiate Institute of classic design. Campion College, erected by the Roman Catholics, is one of the finest buildings in the city, while the Lutheran bodies have a splendid college building now under construction. A magnificent college is projected by the Presbyterians, their scheme including the purchase of some three or four hundred acres of ground on which to erect college buildings, at a cost of about \$1,000,000, making provision for the education of both sexes, also a hospital and other buildings in connection with same. From these points it will be seen that the city, although not fortunate enough to possess a Provincial University, may claim to be the educational centre of the province. In addition to the above, there are some 17 public and separate schools, 28 churches, Y. M. C. A. and Y. W. C. A.; two public hospitals and several private nursing homes; a public library with three branches; several business colleges and numerous societies for the advancement of art, music, literature and science, one daily morning paper, one daily evening paper, two weekly papers and several monthly trade publications.

Regina is one of the best paved cities in Canada for its size, having some 31 miles of paved streets, 69.10 miles of graded streets, 45.95 mile of granolithic and 69.42 miles of plank sidewalks. The city also has some 77.94 miles of sewer with 7,712 connections; 78 miles of water mains with 548 hydrants and 5,858 house connections; 5 fire stations with some 53 firemen and a full equipment of the most modern fire fighting apparatus; some 257 acres of parks, a trunk sewer and sewage disposal works, and an incinerator plant for the disposal of garbage.

As to amusements, the city has two theatres and plans for the construction of another are under way. There are also some four moving picture theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many fraternal societies and other organizations exist, devoted to amateur theatricals, cards, debates, etc. The city is within easy distance of Last Mountain and Katopwa Lakes, two of the beauty spots of the province and delightful holiday resorts, offering unequalled facilities for bathing, fishing and boating.

Regina's Municipal Buildings would do credit to a far larger city. The funds for their erection have been to a great extent provided by the sale of townsite lands, yet the city still possesses an asset in its saleable property which is valued at some \$1,791,585.

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the city.

POLICE DEPARTMENT

Headquarters: Hamilton between 12th and Victoria Avenues.

The police department is under the control of the Board of Police Commissioners, consisting of the following:

His Worship the Mayor W. E. Mason (Chairman)

His Honor J. W. Hannon (Judge of the District Court)

J. H. Heffernan (Police Magistrate)

The police force consists of a chief, two inspectors, four detectives, three sergeants, three patrol sergeants, twenty-five constables, two clerks, janitor and matron.

Chief Constable—M. J. Bruton

STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars. At the present time there are about 30 miles of track within the city limits, 14¾ miles of this being in pavement. The rolling stock is as follows:

34 passenger cars	1 snow plow
2 sweepers	1 motor haulage car
30 freight cars	

Total expenditure up to December 31, 1914, was \$1,723,830 of which \$266,065 was for cars and car equipment.

Operation statistics for the year ending December 31, 1924, are as follows:

	1923	1924
Revenue passengers carried.....	5,464,628	4,768,796
Transfer passengers carried.....	657,119	664,407
Total passengers	6,121,747	5,433,203
Passenger car miles.....	1,017,824	1,044,986
Other car miles.....	12,297	10,776
Total car miles.....	1,030,121	1,055,762
Passenger Revenue	\$327,701.41	\$296,255.72
Other Revenue	15,010.29	18,770.79
Total Revenue	\$342,711.70	\$315,026.51
Operation Expense	\$269,700.49	\$244,852.39
Operation Surplus	\$ 73,011.21	\$ 70,174.12

The following fares were effective during the year:

Cash—10c.	Tickets—4 for 25c.
Tickets—2 for 15c.	Tickets—17 for \$1.00 (book)
Tickets—8 for 25c.	(Children over 5 and under 14 years)

All cars in regular service are operated by one man. This method of operation has proved practicable and made a big saving in operating expense.

The construction of a block of track on Edward Street completed a loop between Dewdney Street and the Stadium. This has greatly facilitated the handling of large crowds to and from the professional hockey matches and other events held in the Stadium.

About two-thirds of the revenue, other than passenger, is derived from freight haulage. The Department delivers all coal to the city and provincial power houses, and handles garbage from a central transfer station to the civic incinerator.

ELECTRIC LIGHT AND POWER PLANT

The generating plant at old power house consists of four boilers, aggregating 1,000 H.P.

One 450 K.W. low pressure turbine generating unit.

Two 400 K.W. direct current railway units, vertical engine type.

One 1,200 K.W. motor converter, converting some 2,200 volt three-phase to 600 volt direct current.

No. 2 power house has been completed in which the following additional apparatus is installed: two 1,500 K.W. high pressure turbine generating units, one 3,000 K.W. high pressure generating unit, and one 5,000 K.W. General Electric Curtis high pressure turbine, and six boilers aggregating 3,000 h.p. capacity with Riley mechanical underfeed stokers.

The plant is fitted with all the most modern labor saving devices. 653 series nitrogen, and 50 incandescent (used in subways) lamps are in use.

REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern refuse disposal plants on the continent. All refuse collected from the city is hauled to a central transfer station, where it is loaded into steel dump cars. From the transfer station, which was specially constructed for this purpose at a cost of \$20,000, the refuse is transferred over the street railway to the incinerating plant at the disposal works, a distance of two and a half miles. The incinerating plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the disposal works and to light the grounds.

WATER WORKS SYSTEM

The water works system is owned and operated by the city. The supply of water is obtained from springs and artesian wells in the valley of Boggy Creek, about eight miles northeast of the city. A dam constructed across the Creek impounds about 100,000,000 gallons of water, which replenishes the creek in times of drought. More than 65 wells have been sunk through clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflow and yield pure sparkling water. Regina is in a unique position, and it is the only known instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected into the Barton Pump Well (270,000 gallons capacity), and is raised into the Tor Hill reservoir by means of two 2,000,000 gallons per day turbine pumps, one direct connected to a 75 h.p. electric motor and the other to a 100 h.p. electric motor or either pump can be driven by oil engines. Tor Hill reservoir is a circular reinforced concrete construction, has a capacity of 5,000,000 gallons and stands about 125 feet above the city level; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by 15-inch vitrified pipe to the compensating basin, and thence by 10-inch cast iron main to the city pumping station. The artesian well water gravitates from Tor Hill reservoir to the city through 18-inch pipe.

A rectangular reinforced concrete reservoir is situated near the city pumping station. It is 150 feet long, 153 wide and holds 21 feet of water, its capacity is 5,000,000 gallons.

The compensating basins have a capacity of 1,065,000 gallons.

At the City Pumping Plant the equipment consists of two 2½ million gallon per day, and two 3½ million gallon centrifugal pumps, both sets having parallel and series connections which enable them to deliver their capacity at 60 pounds pressure or half capacity at 120

pounds pressure. Prior to 1924 both sets were steam driven. For greater economy in operating what is largely a standby service electric motors have been purchased and installed on both sets. The capacity and pressure of the pumps will remain the same. To provide a standby. In case of electric failure a new pumping unit has been added, consisting of two 3,300,000 gallon per day centrifugal pumps, each driven by a gasoline engine. These pumps are capable of delivering their rated capacity at 100 pounds pressure.

The normal domestic pressure by gravity is 40 pounds per square inch, which can be increased by pumping.

The distributing system consists of two trunk mains 24 inches in diameter, one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches. The total length of the distributing mains is 66 miles and of supply mains 14 miles.

PARKS

The area of land set aside for park purposes is about 257 acres and is valued with improvements at \$3,300,000.

Alexandra Park—North side Victoria between Osler and Broad. Is used as a children's playground and is equipped with suitable gymnastic apparatus.

Park de Young—North side Tenth Avenue between Robinson and Cameron.

Stanley Park—During the season of 1915 was replanted and laid out in an appropriate form to suit the surroundings with new walks, flower beds, trees and shrubs. This park forms an appropriate frontage for the Union Depot of the Canadian Pacific and Canadian National Railway Companies.

Park Hughes (Football Park)—North side Ninth Avenue between Cameron and Garnet.

Maple Leaf Park (Recreation Park)—South side Fourteenth Avenue between Montreal and Quebec.

Victoria Park—Scarth Street and Twelfth Avenue, which contains over seven acres, situated in the centre of the city, is laid out as an ornamental garden.

Wascana Park—Containing about 45 acres and situated to the south of the city, has a frontage of about a quarter of a mile along Wascana Lake, which extends for nearly two miles east, affording excellent facilities for boating, of which full advantage is taken. There is a large boat club building and a boat livery in the park. There is also a bathing house, which is open for the use of the public. A bandstand occupies an appropriate position in the park.

This park, adjoining as it does the ground of the Regina College, and having an outlook over the lake to the Parliament Building and grounds, offers excellent facilities for development as an ornamental park.

Sixty-two miles of improved boulevards all seeded and planted with trees.

EMMANUEL COLLEGE

In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation; also by a Board of Governors appointed by the Colonial and Continental Church Society of London, England. The Council grants standings in Theology, and the Board controls all matters affecting the welfare of the College, and the proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides (1) an associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate in Theology, and (4) a course leading to the Degree of Bachelor of Divinity.
